

<the episode begins with Collins and Jones walking together to their rooms>

Jones: Man, I can't believe we came back here... to this base.

Collins: What did you expect? A shiny new base?

Jones: Sure or rather just a new one. I really wanted to move to a new base.

Collins: -sighs- Me too.

<both of them separate to their own rooms. The first view is in Collins room>

<the camera looks into his room and sees that it is still bare>

Collins: Looks like I am unpacked already...

<the camera then goes to Jones's rooms>

Jones: -mumbles-

<he walks around his room for a moment and begins unpacking>

Jones: Man, I wanted to be a criminal. Everything is so unfair...

<the camera then slowly leaves his room and shows a shadowy figure moving about the base, crossing his door and then leaving>

Jones: The cool new threads and reputation. Things would be so much cooler as a criminal. -sighs-

<Collins then enters his room>

Collins: How much polish could you possibly have?

Jones: Enough... not like anyone cares about their shoes and how dirty they get.

Collins: Because they are shoes, they are meant to get dirty.

Jones: Well my shoes are going to be the cleanest of the bunch!

<the camera zooms out again and then shows the shadowy figure standing right outside Jones's room. His room then gets really dark and almost black>

Collins: Did you turn the lights off?

Jones: No... MONSTER!

<Collins then turns around and screams>

<both of them run out of the room, running right past Kelen>

Kelen: What are you guys yelling about?

<the camera follows Jones and Collins running until it enters the scene where they meet up with O'Brian and Jasper>

<Jones and Collins then come running down the stairs and start huffing and puffing near O'Brian and Jasper>

Jones: Mon-mon

Collins: MONSTER!

<Collins then faints>

O'Brian: Monster?

Jones: Yeah. Collins and I were...

<there is a distant scream>

Jones: Hey where is Kelen?

Jasper: She was head back to her room.

Jones: That means... THE MONSTER GOT HER!

O'Brian: What monster?

Jones: The one in my room!

O'Brian: You have got to be kidding me. Didn't you mom and dad teach you there are no such things as monsters?

Jones: No! This one is real!

Jasper: Uh huh... maybe we should go check it out? I mean, we did hear a scream as well. A scream... wonder what could that mean?

Jones: It means that Kelen is dead!

O'Brian: I seriously doubt that...

<there is a sound of an explosion and all of them duck down>

Jones: DEAD!

<Jones then goes and hides>

O'Brian: Come on Jasper, lets go check this out.

Jones: You go right ahead, I will... protect Collins

<Jones then goes and begins to drag Collins across the floor and hide him as well>

<O'Brian and Jasper then go walk towards the rooms, and stop in front of Jones's room>

Jasper: There is nothing here.

<O'Brian walks into the room and then sees a magnum on the ground>

O'Brian: Doesn't that belong to Kelen?

Jasper: I wouldn't know. All of us carry magnums and they all look the same.

O'Brian: Hm, well there is no monster and Kelen is not in here anyways.

Jasper: Why would Kelen be in Jones's room? Wait, do you think they are a couple?

O'Brian: No way! If anything Kelen would be the death of Jones.

Jasper: Hmm...

<the two of them exit and begin walking around, the area around them begins to grow darker until they are standing in black>

O'Brian: Hey. Did we pay the electric bill?

<the lights then flicker on and it is instantly white and then slowly dims to normal>

Jasper: That was very unnecessary.

O'Brian: Hey! Stop!

<there is a close up as someone runs across the room and exits>

O'Brian: After them!

<the two guys then chase after the figure and then they end up on a balcony or a high location on the base. The figure stops and aims a gun at the two of them>

Valarie: Stop right there!

O'Brian: No you stop right there!

Jasper: And give us your socks!

O'Brian: Socks?

Jasper: Sorry was caught in the moment.

Valarie: Why are you chasing me?

O'Brian: Chasing you? What are you doing in our base? What are doing here in general? And are you a woman?

Jasper: Mainly he is just asking for your number.

O'Brian: I am not...

Valarie: Just shut up! Stop following me or your friend is going to get it.

O'Brian: Since when did we have friends?

Valarie: Teammate whatever. But follow me and she will die.

O'Brian: Her? Are you talking about Kelen? Where is she? Let her go!

Jasper: Or we will take all of your socks!

O'Brian: Not helping Jasper!

Valarie: I said stop!

<there is another explosion that knocks Jasper and O'Brian backwards, there is some smoke and then Valarie is running again, out of the base this time>

O'Brian: Damnit no!

<the two of them stand there for a second as everything begins to settle down>

Jasper: What are we going to do?

O'Brian: We have to go after Kelen. Damn, this is like a romance movie. Where the hero goes after the princess... except...that Kelen is no princess... whatever, it is like a movie type scenario.

Jasper: Should I get the other two?

O'Brian: No. We can do this ourselves.

<O'Brian then does a cool reload move and then camera goes outside of the base>

<the camera goes and follows and then focuses in on Kelen>

Kelen: Ugh... my head hurts. Wait, where the fuck am I?

<the camera expands to show a small location, whatever cave we choose>

Kelen: Seriously, a cave. You could not have chosen anywhere better?

<Valarie and then appears out of the shadows>

Valarie: You shut your mouth!

Kelen: Excuse me? Don't you dare start threatening me. You knocked me out and dragged me to a cave. A cave if you ask me of poor taste. Keeping me hostage is one thing but then trying to keep me quiet. I am telling you no right now.

Valarie: ... fine.

<the two of them go quiet and Valarie turns her back to Kelen, keeping guard to the entrance of the cave>

<Kelen takes a step around>

Kelen: So who are you?

<Valarie like takes a small step so it looks like she is looking at Kelen at a side angle>

Valarie: My name is Valarie Payne. And I am here to kill all of you.
